

## CCT025 - CCT412

### CLAMPS & PIPE SUPPORTS

#### TUBE CUSHIONED CLAMPS

Other sizes available by request

Controlled Squeeze  
Shoulder Bolt  
on sizes up to 1 3/8" OD

- Cushion material is a thermoplastic elastomer rated from -65°F to 248°F (-53°C to 120°C).
- Resist most fuels, oils, gases, greases, solvents, mineral acids and other harsh materials.
- Allow fluid conductors to be added or removed from installations without disturbing adjacent lines.
- Permit various size lines to be mixed to suit installation.
- Available in 304 and 316 stainless steel. Aluminum offered for special orders.

Finish Specifications		
Finish	Finish Code	Description
Zinc Electroplated	EG	Zinc electroplating is used to coat plain steel. The electroplating process requires that the component be immersed in a solution containing zinc ions that are deposited on the surface of the part. Electroplated zinc is shiny and smooth, and is suitable for indoor environments with low relative humidity.
